

GOVERNOR'S SCHOOL STEM AWARDS 2020

Recognising STEM education

Schools this year have been more innovative and hardworking than ever before, inspiring students in the STEM fields, and they deserve to be recognised!

The awards celebrate Western Australian schools that demonstrate excellence in leadership, advocacy, engagement and achievements in science, technology, engineering and mathematics (STEM) education.

The Governor will announce primary and secondary school winners and runners up at a presentation ceremony in November.

Participation is open to all Western Australian schools from the public or private sectors. Applications close at 10am, 3 August 2020 (AWST).

For more information and to download an application form please visit: www.scitech.org.au/educators/governor-school-stem-awards/
