

Community Events

Are you part of a community group, school P&C or a local retailer?

We'll bring the wonders of science to you with our engaging, inclusive community events that are high on energy and higher on learning.

Whether you're running an agricultural show, fair or fete, let our science presenters put on a show you'll never forget.

Scitech has a program to suit every budget and location across Western Australia.

Science shows

Our science shows have been designed to appeal to audiences of all ages. We encourage children and their parents or caregivers to engage with the shows together by making observations, predictions and sharing their delight in the outcomes.

Under Pressure

Do you ever feel like you're under pressure? That's probably because we all live under the crushing force of air pressure. We just don't notice it because our bodies (and the things around us) push back. Our science presenters explore just how much pressure we're really under as we use nothing but the ocean of air around us – and a splash of science – to turn your world inside out and upside down.

Hot vs Cold

Two temperatures enter, one temperature leaves – and the results are sure to surprise! Our science presenters explore how the hidden properties of materials affect how heat forms, flows and feels with this astonishing demonstration of thermodynamics. Audiences will make predictions and test ideas in this ultimate showdown between hot and cold.

Science Wonderland

Our Science Wonderland is a unique environment packed with interactive exhibits, brain-bending challenges and awesome technology. Guaranteed to ignite curiosity in kids and adults alike, this hands-on experience allows visitors to explore, investigate and discover the world of science, technology, engineering and maths!

Early Childhood Workshops

An interactive and exciting learning environment for ages 0-5, where developing young minds are able to learn through play. A hands-on learning experience for adults and children to enjoy together.

Conditions

It is essential for a member of your organisation to meet our staff on arrival to ensure occupational health and safety requirements are met.

Duration

Our community programs can be booked for up to 5 hours per day. Our live shows run for 30 minutes each.

Checklist

There are a few things we need to confirm to ensure your experience with Scitech is fun, safe and accessible.

You need to provide

For all bookings:

- ☐ A location map with the show space and preferred parking area clearly marked.
- ☐ An undercover or indoor space protected from the sun, wind and rain.
- ☐ Perimeter fencing.
- ☐ Access from parking area to the venue must have a flat or ramp surface (no stairs).

Science shows:

- ☐ An area of at least 6m x 3m for our stage setup.
- ☐ Additional covered space for your audience.
- ☐ Access to regular power outlets.
- ☐ Access to water.
- ☐ If we are sharing a stage with other parties, we will need an area as close as possible to the stage to use for equipment setup and preparation, plus 15 minutes either side of shows to move equipment on and off the stage.

Science Wonderland:

- ☐ We need an area of at least 8m x 10m for this experience.
- ☐ Access to regular power outlets.
- ☐ Vehicle access as close as possible to the setup location, 2 hours *before* the scheduled opening time and 90 minutes *after* our closing time.

We will provide

For all bookings:

- ☐ Promotional images.
- ☐ Tagged electrical items.
- ☐ Trained Scitech facilitators who have Working with Children checks.
