

INFORMATION SHEET

## Incursions

# Secondary Students

Science never sleeps. That’s why our engaging, inspiring and inclusive STEM programs keep the learning alive at your school.

### CSI: The Blackmail

*(60 minute workshop)*

#### Workshop (Year 7 - 10)

Using their scientific inquiry skills, students investigate a crime scene by looking through the evidence. Scan the crime scene, analyse the clues and develop an explanation for what happened that night! Can your group solve the mystery?

### Beyond the Beaker

*(45 minute show)*

#### STEM Careers show (Year 7 - 10)

Welcome to the future – where science, technology, engineering and maths are essential to both our work and day-to-day activities than ever before.

Showcasing how our work lives will change, this presentation explores how students can harness their STEM skills for maximum enjoyment, well-being and – perhaps most importantly – their career opportunities. This interactive and informative experience is designed to inspire students to study STEM – both now and into their futures.

### Make it to Market

*(4 contact hours)*

#### Design Thinking Workshop (Year 7 - 9)

Industries across the world are changing the way they work to embed sustainable practice into all their processes. But how do they find solutions to the wicked problems of consumption and waste?

With the guidance of Scitech Facilitators, students will gain an introduction to industry-standard design processes to develop and pitch their own innovation to a real-world sustainability problem.

### Location

All Scitech programs require an indoor, ground-floor area. Please ensure that your venue(s) are not being used 1 hour before and after the program, to allow for set up and pack down.

Program	Participant	Cost
CSI: The Blackmail	60+ students	\$7.00 per student
	Less than 60 students	\$420.00 flat rate
Beyond the Beaker	90+ students	\$4.00 per student
	Less than 90 students	\$360.00 flat rate
Make it to Market	20+ students	\$30.00 per student
	Less than 20 students	\$600.00 flat rate
