

Secondary Excursions

Learning outside of the classroom is a great way to see science from a fresh perspective. That's why we've created programs that are engaging for your secondary students

All school excursions to Scitech include a meal break and free time to explore our generic exhibit galleries.

See below for what your students can discover at Scitech:

Chevron Science Theatre

Mystery Hunters Show

Energy is everywhere and is in lots of different forms. Power Trip explores how energy is transferred and transformed in a series of exciting and informative demonstrations including pyrotechnics, kinetic and potential energies, electric motors and plasma.

Years: 7-10

Duration: 25 minutes

Terms: 1-4

Feature Exhibition

Human Potential

Students explore how humans use technology to enhance their lives through the exploration of 23 hands-on exhibitions. We extend this by exploring the need for innovation, making observations about current technology to formulate predictions on how humans may advance technology. Students utilise critical thinking to examine and discuss ethical issues surrounding the use of technological advancements.

Years: 7-10

Duration: 60 minutes

Terms: 1-3

Rio Tinto Innovation Central

Drop Zone Challenge

We are entering an exciting era where Moon exploration will be witnessed by a new generation. In this hands-on workshop students design, create and test a prototype moon lander.

By using an innovation process, students will:

- explore and collaborate on design
- test their prototype on our 5.9m high drop zone exhibit
- refine their prototype to reduce the impact on landing

Can your students find a solution for future planetary exploration?

Years: 7-10

Duration: 60 minutes

Terms: 1-4

Planetarium

We are Astronomers

Join astronomers from around the world as they unravel the secrets of starlight. Visit telescopes on the ground and in space, explore light of different wavelengths and dive into the Large Hadron Collider to discover the way modern astronomy is done.

Years: 7-12

Duration: 45 minutes (incl. a 20 minute live presentation)

Terms: 1-2

We Are Stars

Be inspired by this full dome animation that explores the origins of the universe, our solar system, and the beginnings of life on planet Earth. Ask some of the biggest questions of all time: What are we made of? Where did it all come from?

Years: 7-12

Duration: 45 minutes (incl. a 20 minute live presentation)

Terms: 3-4

Capturing the Cosmos

Modern astronomy is a far cry from the ancient star gazer hunched over an eyepiece. Explore how scientists use vast datasets, multi wavelength observations and computer simulations to study a universe filled with galaxies, dark energy and matter.

Years: 7-12

Duration: 45 minutes (incl. a 20 minute live presentation)

Terms: 1-4

Booking your Scitech Excursion

Get out of the classroom and into Scitech with an excursion! Call us on **9215 0740** or head to scitech.org.au/excursion-guide/ to make a booking

Includes

- 1 General exhibit exploration
- 2 Planetarium Show
- 3 Science Theatre Show

Extras - Choose only one

\$2
